RAISING FUNDS
TO SUPPORT STEWARDSHIP
OF OUR NEW HAMPSHIRE
TRAILS

The Purpose is to raise collaborative funds that can be used by recreational organizations, State Parks and Conservation Agencies to support thier improvements, maintenance and acquistition of trails and trail heads for equine use.

For years, local individuals, recreational organizations and trail riding clubs have been the backbone of the effort to raise funds that are an essential part of the trail stewardship equation. The principal method of fund raising for equine users has been the benefit trail ride. These events often have a limited monetary return. This new opportunity adds to and does not replace the efforts done by a small minority of the equine community. We have a larger, under-utilized, community that can be involved to **Support Where The Hoofs Go.**

Support donations from the larger equine community and the attendant support businesses will help to establish relationships with other trail user organizations and with private and public land managers.

This will allow NHHC to award monetary gifts and/ or provide matching funds to sponsor an organizations project. Thus enabling efforts to increase the scope and timeliness of trail work that benefits our equine community.

Fund raising effort

To accomplish this, we are reaching out to the greater equine community in New Hampshire for donations to the fund.

Who will our target sponsors be?

- Individuals from the equine community
- Equine Clubs/Organizations
- Local Businesses related to the equine industry

NHHC members and affiliate members are our primary help with soliciting funds via Face Book posts and other fund raising methods. These members can also nominate a recipient to be considered.

Award size

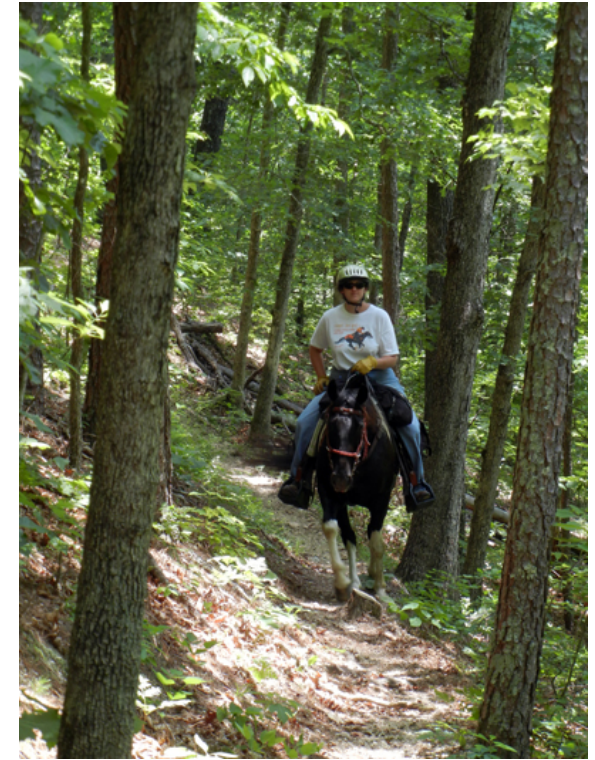

The size of the proposed awards will be governed by the success of our fund raising project but we are anticipating to grant approximately \$500 per allocation. Aiming to raise \$1000 each year.

Please fill out the provided donation form in this brochure for your contribution. And if you are a NHHC or Affiliate member you are welcome to nominate a recipient

Possibilities for collected funds:

- Trail improvement—can include grading, adding bridges, clearing trails
- Parking improvement—can include access and signage
- Amenities—can include mounting stations and toilet facilities
- Land Aquisition—with equine trails
- Administrative Costs- for managing trails, maps, hiring student conservation groups, trail designer, etc.

Donations to a 501C5 are not tax deductible.
